 PEEL FROM CORNER OF BOOKLET

ENVIRONMENTAL HAZARDS

This pesticide is extremely toxic to aquatic and estuarine invertebrates. Do not apply directly to water or allow drift to water. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Rinsing application equipment over the treated area will help avoid run off to water bodies or drainage systems.

BEE CAUTION: MAY KILL HONEYBEES AND OTHER BEES. This product is highly toxic to honeybees and other bees. Do not apply to plants in bloom.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

READ ALL DIRECTIONS FOR USE AND PRECAUTIONARY STATEMENTS BEFORE USING.

Restrictions

- Do not apply this product in a way that will contact any person or pet, either directly or through drift. Keep people and pets out of the area during application.
- Do not allow people or pets to enter the treated area until sprays have dried.
- For outdoor use only.
- Food utensils such as teaspoons & tablespoons may not be used for food purposes after use with pesticides.
- Not for use on plants grown for sale, commercial use, research, or

for commercial seed production.

- Use on lawns is prohibited.

1. WHAT IS THIS PACKAGE FOR?

ferti-lome® Liquid Carbaryl Garden Spray is an easy to use Insecticide for use on Home Ornamentals, Fruit Trees, and Vegetables.

2. HOW DO YOU USE IT?

SHAKE WELL BEFORE USING. Mix 4 teaspoons per gallon of finished spray using a pump-type sprayer. Apply when air is calm. Start spraying at the farthest corner of the treatment area and work backward to avoid contact with wet surfaces. Allow spray to dry in treated areas before reentering. For trees taller than 10 feet, consider hiring a licensed professional. Do not apply if leaf surfaces are inaccessible. Spray thoroughly to wet upper and lower leaf surfaces, stems, and branches. Apply when insects or damage appear. Repeat as necessary to maintain control, following the specified restrictions or use listed for the specific use site. Use on Ornamental flowers (including roses), shrubs and trees. Mix 4 teaspoons per gallon of finished spray. Kills **ANTS** (except harvester ants, pharaoh ants and carpenter ants), **Apple Aphid, Armyworm, Azalea Leafminer, Bagworms, Birch Leafminer, Blister Beetle, Cutworms, Fuller Rose Beetle, Grasshoppers, Japanese Beetle, Leafhoppers, Mealybugs, certain Leafminers, Rose Aphid, Rose Chafer, Scale Insects, Tent Caterpillar and Webworms.**

Repeat applications as necessary up to 4 times per year for trees and 6 times per year for ornamental shrubs and flowers, but not more than once every 7 days.

VEGETABLES: Mix 4 teaspoons per gallon of finished spray. Spray thoroughly to wet upper and lower leaf surfaces, stems and branches. Follow Pre-Harvest Intervals (PHI) listed in () following each individual Crop and Plant and maximum number of applications per

year listed in the following [].
