- 4 Pounds Covers 1,000 Square Feet. • Easy To Use.

NET WEIGHT 15LBS. (6.8 KG)

32156

HI-YIELD® COPPERAS is recommended to help prevent that yellow and faded-out look in your Lawns, Shrubs and other Plants caused by an Iron deficiency.

Iron Chlorosis shows up in a Plant through the yellowing of leaves while the veins remain green. **HI-YIELD® COPPERAS** is also used to acidify the soil and may be used any time during the Growing Season.

DIRECTIONS FOR USE

2 cups is approximately 1 lb.

LAWNS

Apply 4 lbs. per 1,000 square feet, using any hand or power-operated gravity or rotary type spreader. Water in after application.

TREES

Use ½ lb. for each 1 inch of trunk diameter. Spread out under branches and water in after application.

SHRUBS

Use 1 lb. for each 2 feet of height. Mix into the soil and water in after application.

NOTE: Foliage applications in forms of spray should be used only on recommendations of your Nurseryman or Agricultural Agent, as burning may occur.

CAUTION: This product may stain driveways, walks, patios, etc. Sweep off thoroughly, immediately after contact.

This product is not intended for nor recommended for Container Grown Plants.
