Natural Guard® Brand by ferti•lome® HuMic Ready To Spray

GENERAL INFORMATION

Use **Natural Guard Brand by ferti•lome® HuMic Ready to Spray** in the spring at four week intervals to reduce the stress on your plants due to infrequent watering, and maximize the vitality of your garden, lawn or beds. Care should be used in spraying bedded plants or garden plants, aiming to keep the product off the leaves and flowers.

HOW TO APPLY

This sprayer applies 6 oz. per gallon of water to cover 1,000 sq. ft. Refer to fill level markings on side panel of the container to determine the amount of product used. **Shake well before using.** Simply attach to the garden hose and follow these simple instructions:

1. Turn on water.
2. Hold sprayer and container level and point towards area to be sprayed.
3. Bend tab back and turn knob to ON.
4. Begin spraying product evenly over the area you wish to treat.
5. To stop spraying, turn knob to OFF.
6. Turn off water.
7. Relieve water pressure by bending plastic tab back and turning knob to ON position until water slows to a drip. Then turn knob back to OFF position.
8. Disconnect sprayer from hose.

CONTAINS NON-PLANT FOOD INGREDIENT

12% Humic Acid derived from Leonardite
