F370

Container Size	Application Rate
1 Gallon or 8"	1 tablespoon
2 Gallon or 10"	3 tablespoons
5 Gallon or 14"	5 tablespoons
10 Gallons	3/8 cup
15 Gallons	3/4 cup
30 Gallons	1 - 1/2 cups

For Container Grown Plants: Apply this product for Hibiscus and other tropical plants at the following rates: Apply over the entire surface of the growing media and water thoroughly. Repeat application every 14 days until blooming starts, then feed once per month. Allow plant to dry, then feed and water thoroughly. When flowering is over, repeat this cycle for continuous flower production.

DIRECTIONS FOR USE

CAUTION: Keep out of reach of children. Use only as directed. After application, sweep off any spillage (do not wash off with water as it will cause staining) from walks, driveways, pool decks, patios, porches, brick, stone, concrete, clothing and shoes to avoid staining.

For Plants in the Landscape: Apply this product around each individual plant at a rate of twice the amount shown for each container size plant in the chart below. Repeat application once every two weeks until blooming begins, then reapply once a month thereafter. Water in thoroughly after application.
