UPC Number 7-32221-40330-7
3 lbs. 35 cases per pallet

Application Rates

- **New Plantings:** Dig a hole about 12" across and 18" deep, add peat moss and 3 cups of Natural Guard Rose Food to the soil which was removed and mix thoroughly. Use the new mixture to partially refill hole. Make a cone of soils to place plant on. Spread roots evenly. Add 4-5 inches of soil to firm around roots. Fill hole within 2-3 inches of top, fill with water and let it soak in then finish filling hole.
- **Established Plants:** Feed monthly from beginning of season to middle of September. Keep plants mulched and watered.
- **Individual Plants:** Apply approximately 1-¼ cups around each plant and mix into the top inch of soil.
- **Rose Beds:** Spread 3 lbs. per 33 sq. ft. of bed area and mix into the top inch of soil.

Always Read and Follow Label Directions.
