

## POTTED OR CONTAINER GROWN

**Soil Application:** Dissolve 1 teaspoon in 1 gal. of water. Apply with each watering until desired color or flowering is achieved, then every other watering to help maintain vigorous growth.

## OUTDOOR GROWN

**Soil Application:** Dissolve 2 tablespoons in 1 gal. of water or 1 lb. in 20 gal. of water and apply every 10 to 14 days, at a rate of 1 gal. per 10 sq. ft. or 10 ft. of row.

**Foliage Feeding:** Dissolve 1 tablespoon in 1 gal. of water and spray foliage until thoroughly wet. Apply every 7 to 10 days at a rate of 1 gal. per 10 sq. ft. or 10 ft. of row.

ferti-lome® ACID LOVING PLANT FOOD is a highly concentrated Plant Food and must be dissolved in water before use. This product helps promote lush green foliage, by supplying the necessary nutrients in a fast-acting form. Plants need a continuous supply of nutrients for fast growth and maximum production. In nutrient deficient soils, this product helps add nutrients necessary in a form available to the Plants. Works best when combined as a foliage spray and a soil drench. Insecticides and Fungicides may be added to the diluted solution to control problems and feed your Plants.
