GENERAL INFORMATION

HI-YIELD® BASAL OIL BLUE is a unique, highly emulsified low viscosity non-aromatic/non-carcinogenic diluent with select surface-active compounds and coupling agents. **HI-YIELD® BASAL OIL BLUE** is developed specifically for basal-bark and cut-surface brush control applications.

USE RECOMMENDATIONS

HI-YIELD® BASAL OIL BLUE can be used at dilution ratios of 1:4 (20%) 32 oz. per gallon of finished product or 1:3 (25%) 25.6 oz. per gallon of finished spray when following the herbicide manufacturers' label recommendations.

Treat thoroughly to the lower 18" around the entire stem or trunk. Treat the root collar area and any exposed roots. Do not spray to run down or puddle.

NOTE: Use rates may vary dependent on environmental conditions and applications. Increase rates as necessary for additional wetting and penetration.

STORAGE AND DISPOSAL

STORAGE: Store in a cool well-ventilated place. Keep in original container tightly closed. Do not reuse empty container. Do not store with food, feed, or other material to be used or consumed by humans or animals. Do not contaminate water supplies. For optimal storage, store between 40° and 90° F.

DISPOSAL: Do not contaminate water, food or feed by storage or disposal. Dispose of contents in container to an approved waste disposal facility in accordance with all federal, state and local regulations. Triple rinse (or equivalent) adding rinse water to application tank. Offer container for recycling or dispose of in a sanitary landfill or by other procedures approved by local regulations. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrecycle.org

Inherent Risks of Use: It is impossible to eliminate all risks associated with use of this product. Plant injury, lack of performance, or other unintended consequences may result because of such factors as use of the product contrary to label instructions (including conditions noted on the label, such as unfavorable temperature, soil conditions, etc.), abnormal conditions (such as excessive rain-fall, drought, tornadoes, hurricanes), presence of other materials, the manner of application, or other factors, all of which are beyond the control of Voluntary Purchasing Groups, Inc., LLC or the seller. All such risks shall be assumed by buyer.
