

Hi-Yield® Spray Additives

Hi-Yield® Spreader Sticker

- A non-ionic surfactant.
- Increases absorption and penetration through stems, leaves and roots.
- Use when leaves are very waxy, like poison ivy.
- Use with insecticides, fungicides, herbicides and fertilizers.
- Add to almost all products except oils, soaps & a few others (see labels).
- Mix 1 to 2 tsp. per gallon of mixed solution.

8 oz. 31061 32 oz. 31063 16 oz. 31062

Hi-Yield® Herbicide Enhancer

- Use to enhance herbicide effectiveness.
- This is a water conditioner for hard water, high in Calcium.
- Also has a defoamer, drift reducer and surfactant.
- Use with herbicides, may be used with insecticides and fungicides.
- Mix 1½ to 6 oz. per gallon of mixed solution. Use higher rate when extreme hard water conditions exist.

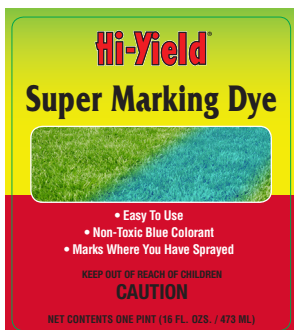

16 oz. 31073 32 oz. 31074

Hi-Yield® Crop Oil Concentrate

- A balanced system of oil and surfactants.
- Increases the activity of herbicides, especially under high temperatures and high humidity.
- Also provides uniform coverage.
- Use with herbicides and defoliants that call for an oil adjuvant. May also be use with insecticides, fungicides and fertilizers.
- Mix 1 to 2 tsp. per gallon of mixed solution.

8 oz. 31041

Hi-Yield® Super Marking Dye

- A highly visible, blue colorant.
- Temporarily marks where you have sprayed, saving chemical, time and money.
- Reduces over-application.
- Use with insecticides, fungicides, herbicides and fertilizers.
- Mix 1 oz. per gallon of mixed solution.
- More or less may be added depending on environmental conditions and color desired.

8 oz. 31051
