Fast Acting Gypsum®

GOOD SOIL LEADS TO GREAT RESULTS

A great result is a lawn or garden that is the envy of the neighbors. **HI-YIELD® FAST ACTING GYPSUM®** is the stress free way to get there. When you apply **HI-YIELD® FAST ACTING GYPSUM®**, you are doing more than giving your lawn and garden calcium and sulfur. You are also helping to improve the overall soil structure and helping to loosen compacted soils*. Better air and water penetration promotes root development and heartier plants. It is the worry free way to a beautiful lawn or garden.

INSTRUCTIONS

STEP 1:
Apply with any spreader

STEP 2:
Water in

STEP 3:
Enjoy results

WHY

HI-YIELD® FAST ACTING GYPSUM® is one of the best things you can do for your lawn or garden. It can help to loosen compacted soils which in turn promotes root development*. It also adds calcium and sulfur to your soil, two essential elements. **HI-YIELD® FAST ACTING GYPSUM®** will not affect soil pH. **AST®** helps to reduce sediment loss and helps to condition soils creating a better environment for growth.

A little goes a long way. University testing has shown that **HI-YIELD® FAST ACTING GYPSUM®** combined with Advanced Soil Technology™ is more effective at holding calcium and sulfur in the soil than conventional gypsum products.

WHEN

Apply any time of the year to help improve soil structure*. For best results apply in the spring and fall seasons. Gypsum can be especially effective at repairing salt damaged areas after winter*.

WHERE

Use anywhere in your lawn or garden. It can be applied to all soil types and is especially effective on clay and other compacted soils*.

POWERED BY AST®

Advanced Soil Technology™ (AST®) improves the physical characteristics of the soil for maximum performance.

- Helps improve water penetration
- Helps reduce soil loss
- Helps improve seed establishment

APPLICATION RATES

Application	Rate	Frequency
New Lawns	25 lbs. per 2,500 sq. ft.	At installation
Lawns	25 lbs. per 5,000 sq. ft.	Up to 2 times per season
Shrubs	1 cup surrounding base	Feed in spring and fall
Vegetable Gardens	1 lb. for every 100 sq. ft.	Feed in spring
Flower Gardens	1 lb. for every 100 sq. ft.	Feed in spring
