

Hi-Yield[®]

KILLZALL[™]

QUICK

Weed And Grass Killer

Visible
Results in
3 Hours!

Ready-To-Use

- Hi-Yield Killzall Quick Weed and Grass Killer Kills Weeds And Grasses In Patios, Driveways, Sidewalks, Ornamental Gardens And Other Non-Lawn Areas
- Effective Even In Cool And Cloudy Conditions (As Low As 50°F)
- Enters The Plant Within One To Two Hours, Won't Wash Off
- Rainproof In 10 Minutes!

ACTIVE INGREDIENT:

Glyphosate in the form of its
isopropylamine salt..... 2.0%

Pelargonic acid and related fatty acids..... 2.0%

OTHER INGREDIENTS:..... 96.0%

TOTAL: 100.0%

KEEP OUT OF REACH OF CHILDREN

CAUTION

See Back Panel For Additional
Precautionary Statements

NET CONTENTS: ONE GALLON (128 FL. OZS. / 3.78 L)

FIRST AID

IF IN EYES:

- Hold eye open and rinse slowly and gently with water for 15 to 20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

Have the container or label with you when calling a poison control center or doctor, or going for treatment. For information on this pesticide product (including health concerns, medical emergencies or pesticide incidents), call the National Pesticide Information Center at 1-800-858-7378.

PRECAUTIONARY STATEMENTS Hazards to Humans and Domestic Animals

CAUTION: Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling.

ENVIRONMENTAL HAZARDS

To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface water. Applying this product in calm weather when rain is not predicted for 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Rinsing application equipment over the treated area will help avoid run off to water bodies or drainage system.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Do not allow people or pets to enter the treated areas until after the spray has dried.

PRODUCT INFORMATION

How It Works:

This product enters the plants through the foliage and moves down to the roots systemically, thereby killing it. Weeds die, roots and all, so they don't grow back. Kills only what you spray. Any product not absorbed by the plant will be rendered inactive after it hits the soil. This product has no soil residual activity. Sprayed weeds wilt within 3 hours with complete kill in 1 to 2 weeks.

Where to Use:

- Along fences and foundations
- Around shrubs and trees
- Edging around foundations and retaining walls
- Flower beds and vegetable gardens
- On patios, walkways and driveways, gravel or mulch beds
- Driveways and patios
- On wooded and vacant lots
- Other areas of your yard
- Other areas where tough weeds are invading your yard

How to Apply:

- Adjust nozzle to the desired spray setting.
- Spray the weeds or grasses you want to kill until thoroughly wet.
- When spot treating weeds around desirable plants, shield plants from drift with a sheet of cardboard or plastic. If desirable plants are accidentally sprayed, rinse off immediately with water or cut off treated area.

IMPORTANT

- Do not spray plants or grasses you like - they will die. NOT for spot weed control use in lawns since this product kills lawn grasses.

WHEN TO APPLY

- Apply when weeds are actively growing.
- For best results, apply during warm, sunny weather above 50°F to accelerate systemic movement from foliage to roots.
- Spray when air is calm to prevent drift to desirable plants.
- **RAINPROOF:** Rain or watering 10 minutes after application will NOT wash away effectiveness. This product is rainproof in 10 minutes.

- Apply when weeds are small and before seeds form.
- Established hard to kill weeds may require a repeat application.
- Weeds usually yellow and wilt within 2 hours with complete kill in 1 to 2 weeks for annual weeds. Perennial weeds such as poison ivy may take 4 or more weeks for complete kill.

WHEN TO REPLANT

- All ornamental flowers, trees and shrubs may be planted 1 day after application.
- Lawn grasses, herbs, vegetables and fruits may be planted 3 days after application.

WHEN TO HARVEST

If used to control weeds around fruits or nuts, wait the following number of days before harvesting:

- **1 Day:** Citrus (Citron, Grapefruit, Kumquat, Lemon, Lime, Mandarin, Orange, Pummelo, Tangelo, Tangerine), Guava, Papaya
- **3 Days:** Nuts (Almond, Beechnut, Brazil Nut, Butternut, Cashew, Chestnut, Filbert, Hazelnut, Hickory Nut, Macadamia, Pecan, Pistachio, Walnut)
- **14 Days:** Apple, Avocado, Banana (Plantains), Berries (except Cranberries), Dates, Figs, Grapes, Loquat, Passion Fruit, Pear, Persimmon, Pomegranate & Quince
- **17 Days:** Apricot, Cherries, Nectarine, Olives, Peach, Plum and Prunes

ADDITIONAL TIPS

To Kill Vines

- If vines are growing up poles, fences, or tree trunks with mature bark, cut vines to a height of 3 to 4 feet and spray vines thoroughly.
- If vines are climbing shrubs or tree trunks with green bark, cut vines at base and treat as directed for stumps or spray regrowth. If spraying regrowth, shield shrubs and tree trunks from spray drift with a sheet of cardboard or plastic.

For Lawn Replacement

Use this product to kill an old unwanted lawn and its weeds before planting a new lawn OR prior to laying a patio, sidewalk, or driveway.

- Skip one mowing before spraying.
- If soil is dry, water before application and 2 to 3 days after application.
- If green patches remain after 7 days, reapply.
- Wait at least 3 days after last application to rake, till or replant with seed or sod.

Kudzu

For best results, apply in mid to late summer when vines are mature and actively growing.

Wild Blackberry

Spray anytime plants are actively growing. Dead canes should be cut down and removed. Reapplication is often required to kill deep roots.

Poison Ivy and Poison Oak

Contact with these plants anytime of the year can cause an allergic reaction. Spray anytime plants are actively growing, but at least 4 weeks before the first killing frost in the Fall. Reapply, if new growth appears. Handle dead plants with rubber gloves. Dispose of plants and rubber gloves in tightly sealed garbage bags.

For Flowerbed and Garden Preparation

Use this product to kill weeds, grasses and brush before planting flowers, fruits, vegetables, trees or shrubs.

- If soil is dry, water before application and 2 to 3 days after application.
- Apply evenly over treatment area.
- Wait 1 to 3 days after last application before planting flowers, trees and shrubs. See "**WHEN TO REPLANT**" section for details.

KILLS ALL TYPES OF WEEDS AND GRASSES

Bahiagrass	False dandelion	Perennial ryegrass
Bentgrass	Fennel	Primrose
Bermudagrass	Fescue	Prostrate spurge
Bindweed	Fiddleneck	Puncture vine
Black medic	Filaree	Quackgrass
Blue toadflax	Florida pusley	Ragweed
Bluegrass	Garden spurge	Sandspur
Brassbuttons	Henbit	Shepherdspurse
Broadleaf plantain	Johnsongrass	Smooth cat's ear
Bromegrass	Knotweed	Sowthistle
Bur clover	Lambsquarters	Spotted spurge
Canada thistle	Little bitter cress	St.
Chickweed	London rocket	Augustinegrass
Crabgrass	Maiden cane	Tall fescue
Common plantain	Mallow	Tansy ragwort
Common groundsel	Mayweed	Torpedograss
Creeping bentgrass	Mouseear	White clover
Creeping Charlie	chickweed	Whitetop
Creeping beggarweed	Nimblewill	Wild morning glory
Curly dock	Oldenlandia	Wild barley
Dandelion	Orchardgrass	Yellow nutgrass
Diffuse lovegrass	Oxalis	Zoysia
Dog fennel	Pennsylvania smartweed	
Evening primrose	Pennywort	

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE: Rotate nozzle to closed position. Store product in original container in a safe place away from direct sunlight. Keep from freezing.

CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container. **If Empty:** Place in trash or offer for recycling if available. **If Partly Filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

WARRANTY—CONDITIONS OF SALE

OUR DIRECTIONS for use of this product are based upon tests believed reliable. Follow directions carefully. Timing and method of application, weather and crop conditions, mixtures with other chemicals not specifically directed, and other influencing factors in the use of this product are beyond the control of the Seller. To the extent consistent with applicable law, Buyer assumes all risks of use, storage and handling of this material not in strict accordance with the directions given herewith. To the extent consistent with applicable law, in no case shall the Manufacturer or the Seller be liable for consequential, special or indirect damages resulting from the use or handling of this product when such use and/or handling is not in strict accordance with the directions given herewith. The foregoing is a condition of sale by the Seller and is accepted as such by the Buyer.
