Turf & Ornamental Weed & Grass Stopper Containing Dimension®

Covers Up To 10,000 Sq. Ft.

ACTIVE INGREDIENT:
dithiopyr: 3,5-pyridinedicarbothioic acid,2-(difluoromethyl)-4-(2-methylpropyl)-6-(trifluoromethyl)-S,S-dimethyl ester .......................... 0.125%

OTHER INGREDIENTS: .............................................................................. 99.875%

TOTAL: .................................................................................................... 100.000%

This product contains 0.0625 pound of the active ingredient dithiopyr per 50 pound bag.

KEEP OUT OF REACH OF CHILDREN

CAUTION

See Back/Side Panel For Additional Precautionary Statements.

Not for use on turf being grown for sale or other commercial use as sod, or for commercial seed production, or for research purposes

Not for use on plants being grown for sale or other commercial use, or for commercial seed production, or for research purposes

For use on plants intended for aesthetic purposes or climatic modification and being grown in ornamental gardens or parks, or on golf courses or lawns

In the state of New York, do not exceed 4.6 lb per 1000 sq ft per year of this product (equivalent to 0.25 lb of active ingredient per acre). In the state of New York, this product may be applied at a minimum of 2.4 lb per 1000 sq ft per year (equivalent to 0.125 lb of active ingredient per acre)

In the State of Florida, do not apply near water, storm drains or drainage ditches. Do not apply if heavy rains are expected. Apply this product only to your lawn/garden, and sweep any product that lands on the driveway, sidewalk, or street, back onto your lawn/garden

For Control of Crabgrass and Control or Suppression of Other Listed Annual Grass and Broadleaf Weeds in Ornamental Landscape Areas, Established Lawns and Ornamental Turf

For use on plants intended for aesthetic purposes or climatic modification and being grown in ornamental gardens or parks, or on golf courses or lawns

Turf & Ornamental Weed & Grass Stopper Containing Dimension®
Proactively implementing diversified weed control strategies to minimize selection for weed populations resistant to one or more herbicides is recommended. This will help determine appropriate actions for treating specific resistant weeds. Consult your local company representative, state cooperative extension service, professional consultants or other qualified authorities to manage utilizing other herbicides alone or in mixtures from a different herbicide groups that are labeled for control of these weeds and/or by using cultural management practices. This will prevent the problem from occurring in the future. Resistant weed plants may not be effectively controlled using Group 3 herbicides but may be effectively controlled with other herbicides alone or in combination with other crop cultural practices.

**Hi-Yield® Turf & Ornamental Weed & Grass Stopper Containing Dimension®**

**DIRECTIONS FOR USE**

- **Storage and Disposal:** Store this product in its original container in a cool, dry place. This product is toxic to fish and highly toxic to other aquatic organisms. To protect the environment, do not allow pesticide to enter surface or ground water, drains, or sewers. Do not allow pesticide to contact waterways, ponds, or lakes.

**USE DIRECTIONS FOR TURF**

The product contains weed killer, which may affect or kill a variety of weeds. Only use the product on the turfgrass you intend to control before the weeds have set seed. For best results, when crabgrass begins to emerge, apply this product according to the label instructions for the desired length of weed control or need for post-emergence Crabgrass control. Label directions are based on the use rate, location or “Region” within the United States where this product is being applied. The actual length of control will vary depending on use rate, weather conditions, condition of the turfgrass, intensity of weed pressure, and cultural practices employed.

**Cool – Season Grasses**

- Dallisgrass
- Kentucky Bluegrass
- Perennial Ryegrass
- Ryegrass, Annual
- Ryegrass, Perennial

**Warm – Season Grasses**

- Bahiagrass
- Centipedegrass
- Crabgrass, Large
- Crabgrass, Little
- Crabgrass, Weekly
- St. Augustinegrass
- Zoysiagrass

**USE RESTRICTIONS**

- **Do not** apply contact herbicides to turf that is being overseeded, established with grass seed mixes, or seeded with other turf species. Turfgrass should have established and be growing vigorously before applying this product. This product is toxic to fish and highly toxic to other aquatic organisms. To protect the environment, do not allow pesticide to enter surface or ground water, drains, or sewers. Do not allow pesticide to contact waterways, ponds, or lakes.

**APPLICATION TERMS**

- **Applying from Hand Held Sprayer:** Use a hand held sprayer with a flat fan nozzle to apply this product. For best results, apply this product evenly and uniformly over all treated areas.

- **Application from Ground Sprayer:** Use a ground spray equipment, such as a tractor mounted sprayer, to apply this product. For best results, apply this product evenly and uniformly over all treated areas.

- **Do not** apply under conditions that would affect product distribution. Wind could affect distribution and move product onto sensitive species. Uneven distribution could result in reduced weed control. Check equipment frequently to verify calibration and proper functioning.

- **Do not apply this product to lawns or ornamental turfgrasses that are poorly established or newly seeded.** This product should only be applied to lawns and ornamental turfgrasses that are well established. For newly established lawns, initial application of this product may result in reduced weed control or Suppression of Other Grass and Broadleaf Weeds:

**Chemical Name:**

- Mustard
- Marestail
- Spurge, Garden
- Spurge, Prostrate
- Bittercress
- Crowfootgrass
- Goosegrass
- Foxtail, Green
- Foxtail, Yellow
- Kikuyugrass
- Sandbur

**PRECAUTIONARY STATEMENTS**

- **Inhalation:** Remove from area of exposure. Remove all jewelry, especially rings or watches, before applying. If inhaled, get medical help immediately.

- **Eye Contact:** Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

**DIRECTIONS FOR USE**

- **Length of Control:** This product will provide up to 4 months of Crabgrass control when applied according to the label directions. However, this length of control will vary depending on use rate, location or “Region” within the United States where this product is being applied. The actual length of control will vary depending on use rate, weather conditions, condition of the turfgrass, intensity of weed pressure, and cultural practices employed.

**ASK QUESTIONS? 855-270-4776**

**MANUFACTURER’S LIABILITY**

- The manufacturer’s liability, whether based on warranty, breach of any express or implied warranty, negligence, strict liability, or other legal theories, shall be limited to, at Seller’s election, one of the following:

- **Purchased Price:**

  - The actual length of control will vary depending on use rate, weather conditions, condition of the turfgrass, intensity of weed pressure, and cultural practices employed.

**USE PRECAUTIONS**

- This product is toxic to fish and highly toxic to other aquatic organisms. To protect the environment, do not allow pesticide to enter surface or ground water, drains, or sewers. Do not allow pesticide to contact waterways, ponds, or lakes.

**APPLICATION INSTRUCTIONS AND EQUIPMENT**

- This product may be applied with drop or rotary-type spreaders designed to apply granular herbicides. For best results, apply this product evenly and uniformly over all treated areas. For best results, use a rotary or drop type spreader with adequately calibrated fertilizer spreaders. Use a drop spreader to apply this product uniformly over all treated areas.

**PRECAUTIONARY STATEMENTS**

- **Inhalation:** Remove from area of exposure. Remove all jewelry, especially rings or watches, before applying. If inhaled, get medical help immediately.

- **Eye Contact:** Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

**Hi-Yield® Turf & Ornamental Weed & Grass Stopper Containing Dimension®**

The ornamentals listed have shown tolerance to this product when applied according to label directions. However, this product has not been tested on all ornamental species, all cultivars of species on this label, or under all possible growing conditions. Therefore, it is recommended that a few plants in a selected area be treated and observed for tolerance under local growing conditions prior to large-scale use.
