## ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and aquatic invertebrates. Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Sweeping any product that lands on a driveway, sidewalk, or street, back onto the treated area of the lawn or garden will help to prevent run off to water bodies or drainage systems.

To the extent consistent with applicable law, buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.

Voluntary Purchasing Groups, Inc. warrants that this product conforms to the chemical description on the label and that the limit of any liability incurred shall be the purchase price paid by the user or buyer.

## USER SAFETY RECOMMENDATIONS

User should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.

User should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. User should remove PPE immediately after handling this product. As soon as possible, wash thoroughly and change into clean clothing. User should remove clothing/PPE immediately if pesticide gets inside.

## DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

**Hi-Yield® Root Killer** is formulated to quickly and economically kill and dissolve roots from trees and shrubs that have entered the sewer line. **Hi-Yield® Root Killer** will prevent root stoppage and fungus growth. It kills the roots that have entered the pipe lines without harm to trees and shrubs outside the sewer. It will not corrode sewer or drain pipes leading into or out of septic tanks, and it will not harm necessary bacterial action in septic tanks or cesspools. By keeping pipes clear of roots and fungi, **Hi-Yield® Root Killer** will prevent the formation of odorous gases. The ideal time to apply this product is before retiring at night, when the use of utilities is low. To apply, pour 1/3 of the crystals into a toilet bowl. Immediately flush the toilet repeatedly until all the crystals have been flushed down. Repeat this procedure until the entire contents have been flushed down. The maximum application rate is 0.5 lbs. metallic copper per application. The minimum retreatment interval is 6 months.

If serious or complete blockage occurs, rodding may be necessary to assure some flow before treatment. This product may also be used through a distribution box direct to septic tank drainfield. Add sufficient water by hose or pail to carry crystals to point of root penetration or blockage. Do not apply this product through tub or sink drains.

## STORAGE AND DISPOSAL

**Do not contaminate water, food or feed by storage or disposal**

**PESTICIDE STORAGE:** Store in original container. Keep in an area inaccessible to children and pets.

**PESTICIDE DISPOSAL AND CONTAINER HANDLING: If empty:** Non-refillable container. Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

## PRECAUTIONARY STATEMENTS

### HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**DANGER:** Corrosive. Causes irreversible eye damage. May be fatal if swallowed. Harmful if absorbed through skin. Do not get in eyes, on skin, or on clothing. Avoid with skin. Wear long-sleeved shirt and long pants, shoes and socks, goggles or face shield and chemical-resistant gloves made of waterproof material. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse. Avoid breathing dust.
