UPC Number 7-32221-40552-3
20 lbs 64 cases per pallet

UPC Number 7-32221-40550-9
40 lbs 40 cases per pallet

Comprised of Humus (Humic Acid) and contains Nitrogen, an important fertilizer material. This organic source of Nitrogen provides one of the primary nutrients required by plants to sustain growth. May be applied to established plantings (top-dress) or incorporated into the soil before seeding or transplanting.

Application Rates:

- ◆ For Established Lawns: Apply 10 lbs. per 1,000 sq. ft. of lawn area in early spring and again in late fall as part of your total fertilization program.
- ◆ For New Lawns: Apply 10 to 15 lbs. per 1,000 sq. ft. prior to soil preparation. Till or work into the soil before seeding. Water in after seeding. Re-apply in early fall.
- ◆ For Flower Beds and Vegetable Gardens: Apply 1 to 1.5 lbs. per 100 sq. ft. before soil preparation for planting. Incorporate into the top 2" to 4" of soil at time of planting.

Always Read and Follow Label Directions.
